2. Le billet sera daté du (jour, mois, année) et arrivera à échéance le (jour, mois, année). Le billet portera intérêt aux dates déterminées dans la définition de la « date de paiement de l'intérêt », aux taux déterminés dans la définition de « taux variable ».

Floating Rate: (one/three-month) Canadian Dollar Bankers Acceptances Rate plus \_\_\_ basis points. The “(one/three-month) Canadian Dollar Bankers Acceptance Rate” shall mean the rate determined in accordance with the following provisions:

(i) On each “Interest Reset Date” (as defined below), \_\_\_\_\_, as calculation agent (the “Calculation Agent”), will determine the (one/three-month) Canadian Dollar Bankers Acceptances Rate, which shall be the average rate for Canadian Dollar Bankers Acceptances having a (one/three-month) maturity which appears on the Reuters Screen CDOR page as such as of approximately 10:00 am Toronto time on that Interest Reset Date. “Reuters Screen CDOR Page” shall mean the display page so designated via the Reuters IDN Network (or such other page as may replace that page on that service or such other service or services as may be nominated by the Investment Dealers’ Association of Canada for the purpose of displaying Canadian Dollar Bankers Acceptances). If the (one/three-month) Canadian Dollar Bankers Acceptances Rate on such Interest Reset Date does not appear on the Reuters Screen CDOR page, such (one/three-month) Canadian Dollar Bankers Acceptances Rate will be determined as described in (ii) below.

(ii) With respect to an Interest Reset Date for which the (one/three-month) Canadian Dollar Bankers Acceptances Rate does not appear on the Reuters Screen CDOR page as specified in (i) above, the (one/three-month) Canadian Dollar Bankers Acceptances Rate will be determined on the basis of the arithmetic mean of the bid rates offered by the principal office of three Canadian Schedule 1 banks (the “Reference Banks”) selected by the calculation agent (after consultation with the Province) at approximately 10:00 am Toronto time on such Interest Reset Date for Canadian Dollar Bankers Acceptances having a (one/three-month) maturity and in a principal amount that is representative of a single transaction in such market at that time. If such arithmetic mean has to be calculated, it shall be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, with five millionths of a percentage point rounded upwards. If fewer than three banks selected as aforesaid by the Calculation Agent are quoting bid rates as mentioned herein, the Floating Rate for the Interest Period commencing on such Interest Reset Date will be the Floating Rate in effect during the immediately preceding “Interest Period” (as defined below).

The amount of interest for each day that this Global Note is outstanding (the “Daily Interest Amount”) will be calculated by dividing the Floating Rate in effect for such day by 365 and multiplying the result by the principal amount of this Global Note. The amount of interest to be paid on this Global Note for each Interest Period (the “Interest Amount”) will be calculated by adding the Daily Interest Amounts for each day in the Interest Period.

Interest Period: The per annum interest rate on this Global Note in effect for each day of an interest Period will be equal to the (one/three-month) Canadian Bankers Acceptances Rate plus \_\_\_ basis points determined on the applicable Interest Reset Date as described in the Floating Rate above. The Floating Rate for each period will be reset (monthly/quarterly) on each Interest Reset Date during the period commencing \_\_\_\_\_ and ending \_\_\_\_\_, compounded flat and paid (monthly/quarterly), in arrears, on the Interest Payment Dates (as defined below) commencing \_\_\_\_\_ up to and including \_\_\_\_\_, using modified business day convention.

Interest Period: The period from and including an Interest Reset Date to but excluding the next succeeding Interest Reset Date and, in the case of the last such period, from and including the Interest Reset Date occurring on \_\_\_\_\_ to but excluding \_\_\_\_\_.

Interest Payment Dates: The xx day of each xx,xx,xx and xx, commencing xxxx, up to and including xx.

Interest Reset Date: The xx day of each xx,xx,xx and commencing xxxxxx, up to and including xxxxxx.

Taux variable : Taux des acceptations bancaires à (un/trois mois) en dollars canadiens plus \_\_\_ points de base. Le « taux des acceptations bancaires à (un/trois mois) en dollars canadiens » signifie le taux déterminé conformément aux dispositions suivantes :

(i) À chaque « date de révision des taux » (comme il est défini ci-dessous, \_\_\_\_\_, à titre d’agent aux calculs (« l’agent aux calculs »), déterminera le taux des acceptations bancaires à (un/trois mois) en dollars canadiens, lequel sera le taux moyen des acceptations bancaires ayant une échéance à (un/trois mois) figurant sur la page CDOR de Reuters vers 10 heures, heure de Toronto, à la date de révision des taux. La « page CDOR de Reuters » fait référence à la page ainsi désignée dans le réseau informatique intégré de Reuters (ou à toute autre page pouvant remplacer ladite page au sein dudit service ou de tout autre service ou services pouvant être choisis par l’Association canadienne des courtiers en valeurs mobilières en vue d’afficher les taux des acceptations bancaires en dollars canadiens). Si, à la date déterminée de révision des taux, le taux des acceptations bancaires à (un/trois mois) en dollars canadiens n’est pas affiché à la page CDOR de Reuters, le taux des acceptations bancaires à (un/trois mois) en dollars canadiens sera déterminé de la façon décrite au point (ii) ci-dessous.

(ii) Dans le cas où le taux des acceptations bancaires à (un/trois mois) en dollars canadiens n’est pas affiché à la page CDOR de Reuters à la date de révision des taux comme il est précisé au point (i) ci-dessous, le taux des acceptations bancaires à (un/trois mois) en dollars canadiens sera déterminé par le calcul de la moyenne des taux offerts par les sièges sociaux de trois banques canadiennes de l’annexe 1 (« les banques de référence ») choisies par l’agent aux calculs (après consultation avec la Province) vers 10 heures, heure de Toronto, à la date de révision des taux des acceptations bancaires à (un/trois mois) en dollars canadiens et en fonction du montant en principal d’une seule transaction sur le marché au moment donné. Le cas échéant, le résultat de ce calcul sera arrondi, au besoin, au cent millième de point de pourcentage le plus près, le cinq millionième de point de pourcentage étant arrondi vers le haut. Si moins de trois banques choisies par l’agent aux calculs offrent des taux comme ceux mentionnés aux présentes, le taux variable pour la période d’intérêt commençant à la date de révision des taux sera le taux variable en vigueur durant la « période d’intérêt » précédente (comme il est déterminé ci-dessous).

Le montant d’intérêt quotidien pendant la période durant laquelle le présent billet général est en circulation (le « montant d’intérêt quotidien ») sera calculé en divisant par 365 le taux variable du jour et en multipliant le produit par le montant en principal du présent billet général. Le montant d’intérêt à payer sur le présent billet général pour chaque période d’intérêt (le « montant d’intérêt ») sera calculé en ajoutant le montant d’intérêt quotidien pour chaque jour de la période d’intérêt.

Période d’intérêt : Le taux d’intérêt annuel du présent billet général en vigueur pour chaque jour d’une période d’intérêt sera égal au taux des acceptations bancaires à (un/trois mois) en dollars canadiens plus \_\_\_ points de base déterminés à la date de révision des taux, comme il est décrit au paragraphe ci-dessus sur le taux variable. Le taux variable de chaque période sera révisé (chaque mois/chaque trimestre) à la date de révision des taux durant la période commençant le \_\_\_\_\_ et se terminant le \_\_\_\_\_, sera composé sur la période entière de la débenture et payé (chaque mois/chaque trimestre), en arriérés, aux dates de révision des taux (telles que définies ci-dessous) à partir du \_\_\_\_\_ et jusqu’au \_\_\_\_\_ inclusive-ment, selon la convention modifiée sur les jours ouvrables.

Période d’intérêt : La période commençant à la date de révision des taux et incluant celle-ci mais excluant la date de révision des taux suivante et, dans le cas de la dernière période, la date de révision des taux du \_\_\_\_\_ au \_\_\_\_\_ mais ne comprenant pas cette dernière.

Dates de paiement de l’intérêt : Le xx jour de chaque xx, xx, xx, et xx, à partir du xxxx et jusqu’au xx inclusivement.

Date de révision des taux : Le xx jour de chaque xx, xx, xx, et xx, à partir du xxxx et jusqu’au xx inclusivement.

3. The Note will be payable as to principal at maturity against surrender by the registered holder to the Corporation at its Head Office in Fredericton, New Brunswick. Interest will be payable by cheque or by such other method as agreed upon by the Corporation and the Province of New Brunswick.

4. Si, après la date des présentes, la Société se porte garante d’un prêt, d’une dette, d’un cautionnement ou de toute autre obligation que celles décrites ci-devant et ci-après au moyen d’un privilège, d’un gage ou de toute autre sûreté sur ses biens ou revenus présents ou futurs, la Société s’engage par le fait même à faire bénéficier la débeture de la présente émission de la même sûreté à parts égales et au pro rata avec le prêt, la dette, le cautionnement ou l’autre obligation ainsi garantie.

ternatively, the amount so calculated for this Debenture may be left in the sinking fund and the amount so calculated with earnings applicable thereto shall be later withdrawn and offset against the repayment at maturity of other debentures of the Corporation issued to the Province and maturing subsequent to this Debenture.

In the event that the Corporation shall default in the payment of indebtedness for borrowed money (including, without limitation of the foregoing, the repayment to the Government of Canada through Northern Canada Power Commission of advances made to the Corporation in respect of the construction costs of certain projects) or in the payments for sinking fund purposes in respect of the Province's Series (XX) Debentures and such default shall continue for a period of forty-five (45) days, then at any time thereafter and during the continuance of such default the Registered Holder of this Debenture may deliver or cause to be delivered to the Corporation written notice that the Registered Holder elects to declare the principal of this Debenture to be due and payable, and on the thirtieth (30) day after such notice shall be so delivered to the Corporation the principal of this Debenture plus accrued interest shall become due and payable unless prior to that time all such defaults theretofore existing shall have been cured.

This Debenture is not transferable.

In case this Debenture shall at any time become mutilated, destroyed, stolen or lost, and such Debenture, or evidence of the destruction, theft or loss thereof (together with the indemnity hereinafter referred to and such other documents or proof as may be required in the premises) shall be delivered to the Corporation at its Head Office, a new Debenture of like tenor and date will be delivered by the Corporation in exchange for the Debenture so mutilated, or in lieu of the Debenture so destroyed, stolen or lost, but, in the case of any destroyed, stolen or lost Debenture, only upon receipt of evidence satisfactory to the Corporation that such Debenture was destroyed, stolen, or lost, and, if required, upon receipt also of indemnity satisfactory to it. Billet à taux variable arrivant à échéance le (jour, mois, année)**

Le présent billet est émis sous le régime de la *Loi sur l'énergie électrique*, chapitre E-5 des Lois révisées du Nouveau-Brunswick de 1973, dans ses nouveaux termes, et en vertu d'un décret du lieutenant-gouverneur en conseil de la province du Nouveau-Brunswick.

NEW BRUNSWICK POWER CORPORATION (the “Corporation”) for value received, hereby promises to pay to

MINISTER OF FINANCE -  
PROVINCE OF NEW BRUNSWICK

on the (XX)th day of (month, year), on presentation and surrender of this Note, the principal sum of

(XXX) MILLION DOLLARS (\$XXX,XXX,XXX)

(in lawful money of Canada) and will pay interest thereon on the dates specified in the definition of “Interest Payment Dates”, at the rates specified in “Floating Rate”.

Floating Rate: (one/three-month) Canadian Dollar Bankers Acceptances Rate plus \_\_\_\_\_ basis points. The “(one/three-month) Canadian Dollar Bankers Acceptances Rate” shall mean the rate determined in accordance with the following provisions:

(i) On each “Interest Reset Date” (as defined below), \_\_\_\_\_, as calculation agent (the “Calculation Agent”), will determine the (one/three-month) Canadian Dollar Bankers Acceptances Rate, which shall be the average rate for Canadian dollar bankers acceptances having a (one/three-month) maturity which appears on the Reuters Screen CDOR page as such as of approximately 10:00 am Toronto time on that Interest Reset Date. “Reuters Screen CDOR Page” shall mean the display page so designated via the Reuters IDN Network (or such other page as may replace that page on that service or such other service or services as may be nominated by the Investment Dealers’ Association of Canada for the purpose of displaying Canadian dollar bankers acceptances). If the (one/three-month) Canadian Dollar Bankers Acceptances Rate on such Interest Reset Date does not appear on the Reuters Screen CDOR page, such (one/three-month) Canadian Dollar Bankers Acceptances Rate will be determined as described in (ii) below.

(ii) With respect to an Interest Reset Date for which the (one/three-month) Canadian Dollar Bankers Acceptances Rate does not appear on the Reuters Screen CDOR page as specified in (i) above, the (one/three-month) Canadian Dollar Bankers Acceptances Rate will be determined on the basis of the arithmetic mean of the bid rates offered by the principal office of three Canadian Schedule 1 banks (the “Reference Banks”) selected by the Calculation Agent (after consultation with the Province of New Brunswick, the “Province”) at approximately 10:00 am Toronto time on such Interest Reset Date for Canadian dollar bankers acceptances having a (one/three-month) maturity and in a principal amount that is representative of a single transaction in such market at that time. If such arithmetic mean has to be calculated, it shall be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, with five millionths of a percentage point rounded upwards. If fewer than three banks selected as aforesaid by the Calculation Agent are quoting bid rates as mentioned herein, the Floating Rate for the Interest Period commencing on such Interest Reset Date will be the Floating Rate in effect during the immediately preceding “Interest Period” (as defined below).

The amount of interest for each day that this Global Note is outstanding (the “Daily Interest Amount”) will be calculated by dividing the Floating Rate in effect for such day by 365 and multiplying the result by the principal amount of this Global Note. The amount of interest to be paid on this Global Note for each Interest Period (the “Interest Amount”) will be calculated by adding the Daily Interest Amounts for each day in the Interest Period.

Interest Payment: The per annum interest rate on this Global Note in effect for each day of an interest Period will be equal to the (one/three-month) Canadian Bankers Acceptances Rate plus \_\_\_\_\_ basis points determined on the applicable Interest Reset Date as described in the Floating Rate above. The Floating Rate for each period will be reset (monthly/quarterly) on each Interest Reset Date during the period commencing \_\_\_\_\_ and ending \_\_\_\_\_, compounded flat and paid monthly/quarterly, in arrears, on the Interest Payment Dates (as defined below) commencing \_\_\_\_\_ up to and including \_\_\_\_\_, using modified business day convention.

Pour valeur reçue, la SOCIÉTÉ D’ÉNERGIE DU NOUVEAU-BRUNSWICK (« la Société ») s’engage par les présentes à payer au  
MINISTRE DES FINANCES DE LA PROVINCE  
DU NOUVEAU-BRUNSWICK,

le (jour, mois, année) ou lors du rachat anticipé selon les modalités prévues aux présentes, sur présentation et remise du présent billet, le principal de

(XXX) MILLIONS DE DOLLARS (XXX XXX XXX \$)

en monnaie ayant cours légal au Canada et les intérêts y afférents payables aux dates précisées dans la définition de la « date de paiement de l’intérêt », au taux déterminé dans la définition de « taux variable ».

Taux variable : Taux des acceptations bancaires à (un/trois mois) en dollars canadiens plus \_\_\_\_\_ points de base. Le « taux des acceptations bancaires à (un/trois mois) en dollars canadiens » signifie le taux déterminé conformément aux dispositions suivantes :

(i) À chaque « date de révision des taux » (comme il est défini ci-dessous, \_\_\_\_\_, à titre d’agent aux calculs (« l’agent aux calculs »), déterminera le taux des acceptations bancaires à (un/trois mois) en dollars canadiens, lequel sera le taux moyen des acceptations bancaires ayant une échéance à (un/trois mois) figurant sur la page CDOR de Reuters vers 10 heures, heure de Toronto, à la date de révision des taux. La « page CDOR de Reuters » fait référence à la page ainsi désignée dans le réseau informatique intégré de Reuters (ou tout autre page pouvant remplacer ladite page au sein dudit service ou de tout autre service ou services pouvant être choisis par l’Association canadienne des courtiers en valeurs mobilières en vue d’afficher les taux des acceptations bancaires en dollars canadiens). Si, à la date déterminée de révision des taux, le taux des acceptations bancaires à (un/trois mois) en dollars canadiens n’est pas affiché à la page CDOR de Reuters, le taux des acceptations bancaires à (un/trois mois) en dollars canadiens sera déterminé de la façon décrite au point (ii) ci-dessous.

(ii) Dans le cas où le taux des acceptations bancaires à (un/trois mois) en dollars canadiens n’est pas affiché à la page CDOR de Reuters à la date de révision des taux comme il est précisé au point (i) ci-dessous, le taux des acceptations bancaires à (un/trois mois) en dollars canadiens sera déterminé par le calcul de la moyenne des taux offerts par les sièges sociaux de trois banques canadiennes de l’annexe 1 (« les banques de référence ») choisis par l’agent aux calculs (après consultation avec la Province) vers 10 heures, heure de Toronto, à la date de révision des taux des acceptations bancaires à (un/trois mois) en dollars canadiens et en fonction du montant en principal d’une seule transaction sur le marché au moment donné. Le cas échéant, le résultat de ce calcul sera arrondi, au besoin, au cent millième de point de pourcentage le plus près, le cinq millionième de point de pourcentage étant arrondi vers le haut. Si moins de trois banques choisies par l’agent aux calculs offrent des taux comme ceux mentionnés aux présentes, le taux variable pour la période d’intérêt commençant à la date de révision des taux sera le taux variable en vigueur durant la « période d’intérêt » précédente (comme il est déterminé ci-dessous).

Le montant d’intérêt quotidien pendant la période durant laquelle le présent billet général est en circulation (le « montant d’intérêt quotidien ») sera calculé en divisant par 365 le taux variable du jour et en multipliant le produit par le montant en principal du présent billet général. Le montant d’intérêt à payer sur le présent billet général pour chaque période d’intérêt (le « montant d’intérêt ») sera calculé en ajoutant le montant d’intérêt quotidien pour chaque jour de la période d’intérêt.

Période d’intérêt : Le taux d’intérêt annuel du présent billet général en vigueur pour chaque jour d’une période d’intérêt sera égal au taux des acceptations bancaires à (un/trois mois) en dollars canadiens plus \_\_\_\_\_ points de base déterminés à la date de révision des taux, comme il est décrit au paragraphe ci-dessus sur le taux variable. Le taux variable de chaque période sera révisé (chaque mois/chaque trimestre) à la date de révision des taux durant la période commençant le \_\_\_\_\_ et se terminant le \_\_\_\_\_, sera composé sur la période entière de la débenture et payé (chaque mois/chaque trimestre), en arriérés, aux dates de révision des taux (telles que définies ci-dessous) à partir du \_\_\_\_\_ et jusqu’au \_\_\_\_\_ inclusive-ment, selon la convention modifiée sur les jours ouvrables.

Interest Period: The period from and including an Interest Reset Date to but excluding the next succeeding Interest Reset Date and, in the case of the last such period, from and including the Interest Reset Date occurring on \_\_\_\_\_ to but excluding \_\_\_\_\_.

Interest Payment Dates: The xx day of each xx, xx, xx and xx, commencing xxxx, up to and including xx.

Interest Reset Date: The xx day of each xx, xx, xx and xx commencing xxxxxx, up to and including xxxxxx.

This Note is a direct and unconditional general obligation of the Corporation and is not secured. This Note ranks and will rank pari passu with all other securities constituting general obligations of the Corporation outstanding at the date of this Note or issued thereafter without any preference granted by the Corporation, save and except any obligation for the repayment to the Government of Canada through Northern Canada Power Commission of loans made to the Corporation in respect of the construction costs of certain projects. The Corporation covenants that if it shall after the date hereof secure any loan, debt, guarantee or other obligation heretofore or hereafter existing by any lien, pledge or other charge upon any of its present or future assets or revenues, the Note of this issue shall ipso facto share in and be secured by such lien, pledge, or other charge, equally and ratably with such other loan, debt, guarantee or other obligation.

This Note shall be payable as to principal at maturity against presentation by the Registered Holder to the Corporation at its Head Office in Fredericton, New Brunswick, Canada, and interest when due by cheque or by such other method as agreed upon by the Corporation and the Province.

This Note is issued to enable the Corporation to borrow from the Province (a portion/all) of the proceeds of the Province's issue of Can. \$(XXX,XXX,XXX) of (X)% Notes due (month, day, year), (the "Province's Series (XX) Notes"). This Note (is/is not) redeemable prior to maturity (at the following dates and premiums).

In respect of the sinking fund payments required to be made by the Province under or in respect of the Province's Series (XX) Notes, the Corporation will pay to the Minister of Finance of the Province, on (month, day) in each of the years (year) through (year), both inclusive, an amount equal to at least 1% of the principal amount of this Note outstanding on each such payment date.

At maturity the Minister of Finance shall determine the accumulated value of the foregoing payments by the Corporation with earnings applicable thereto. At the sole discretion of and approval of the Corporation the amount so calculated may be offset against the obligation of the Corporation to make principal repayments on this Note or alternatively, the amount so calculated for this Note may be left in the sinking fund and the amount so calculated with earnings applicable thereto shall be later withdrawn and offset against the repayment at maturity of other Notes of the Corporation issued to the Province and maturing subsequent to this Note.

In the event that the Corporation shall default in the payment of indebtedness for borrowed money (including, without limitation of the foregoing, the repayment to the Government of Canada through Northern Canada Power Commission of advances made to the Corporation in respect of the construction costs of certain projects) or in the payments for sinking fund purposes in respect of the Province's Series (XX) Notes and such default shall continue for a period of forty-five (45) days, then at any time thereafter and during the continuance of such default the Registered Holder of this Note may deliver or cause to be delivered to the Corporation written notice that the Registered Holder elects to declare the principal of this Note to be due and payable, and on the thirtieth (30) day after such notice shall be so delivered

Période d'intérêt : La période commençant à la date de révision des taux et incluant celle-ci mais excluant la date de révision des taux suivante et, dans le cas de la dernière période, la date de révision des taux du \_\_\_\_\_ au \_\_\_\_\_ mais ne comprenant pas cette dernière.

Dates de paiement de l'intérêt : Le xx jour de chaque xx, xx, xx, et xx, à partir du xxxx et jusqu'au xx inclusivement.

Date de révision des taux : Le xx jour de chaque xx, xx, xx, et xx, à partir du xxxxxx et jusqu'au xxxxxx inclusivement.

Le billet est un emprunt de collectivité locale direct, inconditionnel et non garanti de la Société. Le billet a et aura le même rang que toutes les autres valeurs mobilières constituant les emprunts de collectivité locale de la Société qui sont en circulation à la date de l'émission du billet ou qui seront émises par la suite par la Société, à l'exception de certains prêts garantis consentis à la Société par le gouvernement du Canada, par l'entremise de la Commission d'énergie du Nord canadien, relativement aux coûts de construction de certains projets, et la Société n'accordera aucun rang prioritaire en raison de l'antériorité de la date d'émission, de la devise dans laquelle s'effectue le remboursement ou d'un autre motif. Si, après la date des présentes, la Société se porte garante d'un prêt, d'une dette, d'un cautionnement ou de toute autre obligation que celles décrites ci-devant et ci-après au moyen d'un privilège, d'un gage ou de toute autre sûreté sur ses biens ou revenus présents ou futurs, la Société s'engage par le fait même à faire bénéficier le billet de la présente émission de la même sûreté à parts égales et au pro rata avec le prêt, la dette, le cautionnement ou l'autre obligation ainsi garantie.

À l'échéance, la Société paiera le principal du billet que lui remettra le détenteur enregistré à son siège social à Fredericton, Nouveau-Brunswick, Canada. Lorsqu'il sera exigible, l'intérêt sera payable par chèque ou par un autre mode convenu par la Société et la Province.

Le billet est émis pour permettre à la Société d'emprunter du gouvernement provincial (« la province ») (une partie/l'ensemble) du produit de l'émission par la province de billets d'une valeur de (XXX XXX XXX) \$ en devises canadiennes arrivant à échéance le (jour, mois, année), c'est-à-dire les billets de série (XX) de la province. Le billet (est/n'est pas) rachetable avant l'échéance (aux dates et moyennant les primes suivantes).

En ce qui concerne les versements à la caisse d'amortissement que doit effectuer le gouvernement provincial à l'égard des billets de série (XX) de la province ou relativement à ceux-ci, la Société versera au ministre des Finances de la province, le (jour, mois, année) et le (mois, jour) de chaque année subséquente jusqu'au remboursement du billet, une somme représentant au moins 1 p. 100 du principal non remboursé du billet à chacune desdites dates de paiement.

À l'échéance, le ministre des Finances établira la valeur cumulative desdits versements effectués par la Société et des revenus qu'ils ont produits. La Société pourra, à sa discrétion exclusive et de son propre consentement, soit déduire le montant total ainsi établi des remboursements de principal qu'elle devra effectuer relativement au billet, soit laisser le montant total ainsi établi dans la caisse d'amortissement et le retirer ultérieurement avec les revenus qu'il aura produits pour les déduire du montant à rembourser à l'échéance d'autres billets émis par la Société à la province qui arriveront à échéance après le présent billet.

Si la Société fait défaut de rembourser à l'échéance le principal, les primes (s'il y a lieu) ou les intérêts relativement à l'une ou l'autre des dettes contractées pour emprunter des sommes (y compris, mais sans restreindre la généralité de ce qui précède, de rembourser au gouvernement du Canada, par le truchement de la Commission d'énergie du Nord canadien, les prêts consentis à la Société relativement aux coûts de construction de certains projets) ou d'effectuer ses paiements à la caisse d'amortissement relativement aux billets de série (XX) de la province, et si son défaut se poursuit pendant au moins 30 jours, le détenteur enregistré du billet pourra, à tout moment par la suite et tant que la Société sera en défaut, remettre ou faire remettre à la Société un avis écrit dans lequel il choisit de déclarer que le principal du billet est échu

to the Corporation the principal of this Note plus accrued interest shall become due and payable unless prior to that time all such defaults theretofore existing shall have been cured.

All expenses and charges associated with procuring such indemnity and with the preparation, registration and delivery of a new Note shall be borne by the owner of the Note mutilated, destroyed, stolen or lost.

In conjunction with the issuance of the Province's Series (XX) Notes, the Corporation has agreed to pay (X) of the ongoing costs of that issue to the Province, which costs shall include but not be limited to, Note printing expenses, registrar and paying agency fees and normal administrative costs.
