ASSISTIVE TECHNOLOGY

Assistive technology (AT) includes devices, equipment, media and services used by students with physical, cognitive, sensory, speech, learning or behavioural difficulties that allow them to actively engage in improving or maintaining their ability to meet learning outcomes and maximize their learning success.

The **Neil Squire Society** uses technology, knowledge and passion to empower Canadians with disabilities. The Neil Squire AT Help Desk service provides another layer of support to AT users, their families, and educators. This free service offers information and supports on the effective use of AT for study and employment.

The AT Help Desk is available from Monday to Saturday, 8 a.m. to 8 p.m.
