

DOCUMENT “A”

MINISTER’S DETERMINATION CONDITIONS OF APPROVAL

Pursuant to Regulation 87-83 under the Clean Environment Act

April 10, 2007

File Number: 4561-3-1051

1. In accordance with section 6(6) of the Regulation, it has been determined that the undertaking may proceed following approval under all other applicable acts and regulations.
2. Commencement of this undertaking must occur within three years of the date of this determination. Should commencement not be possible within this time period, the undertaking must be re-evaluated under the *Environmental Impact Assessment Regulation (87-83)* – Clean Environment Act, unless otherwise stated by the Minister of Environment.
3. The proponent shall adhere to all obligations, commitments, monitoring and mitigation measures presented in the EIA registration document (dated July 27, 2005), as well as all those identified in all subsequent correspondence during the registration review. Additionally, the proponent shall submit a summary table detailing the status of each Condition listed in this Determination to the Director of the Project Assessment Branch of the Department of Environment (DENV) every 6 months from the date of this Determination until such a time as all the Conditions have been met.
4. If it is suspected that remains of archaeological significance are found during construction, all activity shall be stopped near the find and the Resource Manager of the Archaeological Services Unit, Heritage Branch of the Department of Wellness, Culture and Sport, shall be contacted at (506) 453-2756.
5. A *Watercourse and Wetland Alteration Permit* will be required for all activity within 30 metres of any watercourse or wetland. This includes the installation of any beaver control structures. For more information, please contact Denis Deveau, Director, Watercourse and Wetland Alteration Program, DENV, at (506) 457-4850.
6. Any plans for installation of a beaver control structure must also be submitted to the Department of Natural Resources (DNR) prior to their implementation. For more information, please contact Joe Kennedy, Wildlife Biologist, DNR, at (506) 832-6055.
7. The fill material identified as “SEGMENT C” and “FRAGMENT A2” in the attached Figure 1 by Hydro-Com Technologies, dated May 3, 2006, must be removed from the wetland by June 16, 2007.
