MINISTER'S DETERMINATION CONDITIONS OF APPROVAL

Pursuant to Regulation 87-83 under the Clean Environment Act

March 3, 2016

File Number: 4561-3-1268

-
1. In accordance with section 6(6) of the Regulation, it has been determined that the undertaking may proceed following approval under all other applicable acts and regulations.
 2. Commencement of this undertaking must occur within three years of the date of this Determination. Should commencement not be possible within this time period the undertaking must be registered under the *Environmental Impact Assessment Regulation (87-83)* – Clean Environment Act again, unless otherwise stated by the Minister of Environment and Local Government.
 3. The proponent shall adhere to all obligations, commitments, monitoring and mitigation measures presented in the EIA registration document dated July 30, 2010, as well as all those identified in subsequent correspondence during the registration review. Additionally, the proponent shall submit a summary table detailing the status of each Condition listed in this Determination to the Manager of the Environmental Assessment Section of the Department of Environment and Local Government (DELG) every six months from the date of this Determination until such a time as the Manager determines it is no longer required.
 4. If it is suspected that remains of archaeological significance are found during construction, as per the Heritage Conservation Act, all activity shall be stopped near the find and the Resource Manager of the Archaeological Services Unit, Heritage Branch of the Department of Tourism, Heritage and Culture, shall be contacted at (506) 453-3014.
 5. An Environmental Management Plan (EMP) must be developed for all phases of this project. This EMP must be submitted to the Manager of DELG's Environmental Assessment Section for review and must receive approval prior to the commencement of construction activities.
 6. An *Approval to Construct* must also be obtained from DELG prior to the commencement of project-related construction activities. For more information, please contact the Director of DELG's Impact Management Branch at (506) 453-7945.
 7. The Virginia Street Pumping Station and Force Main and the second pipeline crossing of the Petitcodiac River, which were part of the original project description, are not authorized by this Determination. If the proponent decides to proceed with these activities at a later date, DELG's Environmental Assessment Section must be contacted prior to doing so in order to determine the applicable regulatory requirements.
 8. The proponent must ensure that all developers, contractors, and operators associated with the construction and operation of the project comply with the above requirements.
